WORK EXPERIENCE

Rismarq Technologies Pvt. Ltd., *Java Full Stack Developer Intern* May 2026 – August 2026
Jaipur, Rajasthan, India

- Developed full-stack application features using Java, Spring Boot, Angular, and MongoDB.
- Implemented backend functionality using Spring Boot and MongoDB, integrating REST endpoints with Angular components to support application workflows.
- Applied object-oriented programming principles to develop maintainable backend components.

GRRAS Solutions Pvt. Ltd., *Machine Learning Trainee* June 2025 – August 2025
Jaipur, Rajasthan, India

- Worked with Python and Scikit-learn on machine learning workflows, including data preprocessing, feature engineering, model training, and evaluation.

Upflairs Pvt. Ltd., *Python Developer Trainee* June 2024 – July 2024
Jaipur, Rajasthan, India

- Practiced Python programming, problem-solving, and object-oriented programming through hands-on training exercises and small projects.

PROJECTS

Smart Notes Summarizer — AI-Powered Study Assistant, *Angular | Spring Boot | PostgreSQL | Gemini AI | JWT*

- Developed a PDF study assistant integrating Gemini AI to generate summaries, flashcards, quizzes, and interview questions.
- Integrated REST APIs and JWT-based authentication between Angular and Spring Boot, using PostgreSQL for data persistence.

Investment Calculator, *Angular | TypeScript | Angular Signals*

- Developed an interactive investment calculator using Angular and TypeScript, using Angular Signals for state management and Pipes to format projected investment results.

Smart Surveillance & Human Analytics System, *Python | YOLOv8 | OpenCV*

- Developed a computer vision system using YOLOv8 and OpenCV for person detection, with a CNN-based model for gender classification.
